7. How did you hear about this survey?

Created with Highcharts 3.0.6 Pacific Puddle Jump Group - 33.3% KP44 Group - 66.7%

Pacific Puddle Jump Group	33.3%		6
KP44 Group	66.7%		12
Circumnavigation Group	0.0%		0
Other	0.0%		0
Total			18

8. Please enter any comments or your experiences with inflatable PFDs:

□ □

Count	Response
1	I did the first manual inflation test on my oldest pfd a few months ago and it held up well.
1	My autoinflatables have a habit of accidnetally inflating on rough, we passages
1	Never thought to do this simple test.
1	Should definitely check them, but mainly just rely on it as a harness.
1	Will test mine-both Mustang
1	always used the Mustang brand; when inflated severly limitsyour movment
1	Hi Jeff, tested 4 units today, 1 failed. a 2003 west marine/ sospenders model with bladder not part of cover. 2 west marine/stearns pfd's and 1 mustang pfd passed the test
1	My PFDs are new and have not been worn as yet. There were several old 14+yrs left by PO I manually operated inflator and it worked ok. All were discarded.
1	All are Mustang products but of two different models. The earlier model seems to have more robust construction but both types have held-up well

9. Please enter your email address if you would like to receive a personal copy of the survey results. Your email will not be shared and after the survey is closed they will be discarded.
