### **GET MORE FROM THE WALKER BAY DINGY**

The RID 275R PVC Tube attaches to the rail of the 8-foot Walker Bay Rigid Inflatable Dinghy (RID) with attachment rails (included in kit)

The tube is a Variable Profile Design (VPD), 4-chamber tube that allows excellent rowing performance. This item is made of 1100 Decitex PVC (275R). It has 3-layer,

Maxibond reinforced seams, Halkey-Robert valves, easy grip handles for easy transporting and a deluxe, heavy duty rub rail that acts as a gentle bumper.

For Sale is the entire brand new tube kit (see above). Note: Oars and dinghy are **not** included.

### **INCREASED PERFORMANCE AND STABILITY**

The HP Rating with a Tube Kit increases to 4HP from 2HP. The person capacity with a Tube Kit increases to 3 from 2.

### **THIS NEW TUBE KIT NORMALLY SELLS FOR OVER A\$1300!**
